American Boys Blast Hun Lines

Enemy Retreating On Wide Front

U. S. TROOPS CONTINUING VICTORIOUS ADVANCE IN FACE VIGOROUS DEFENSE OF FOE

WITH THE AMERICAN ARMY ARMY ON THE AISNE FRONT, September 7.—Additional forces and supplies were brought up by both the Americans and the French during last night and early today the Franco-American lines was again advanced. The allied artillery of both heavy and small calibers is being used to tear holes in the enemy lines.

The new forces were brought up along the Aisne to the west of Fismes, where the Germans are entrenched along the canal parallel to the river. The big guns behind the Franco-American line were set in play upon formations far to the rear, while all the cross roads were subjected to a punishing fire.

WITH THE [illegible] ARMY ON THE AISNE FRONT, September 6 (midnight).—Smashing all resistance by General von Carlowitz's German army, the French and American have crossed the Oise-Aisne Canal and stormed the lower half of the Coucy forest, thus shearing off the southern cornerstone segment of the Hindenburg line.

The Germans have been thrown back to the original positions they occupied in front of Laon, before they began the first of their offensives on March 21.

Laon is menaced with capture, and the German positions on the Chemin des Dames are in peril of being outflanked.

To the south of the zone the allied advance has again thrust the enemy back out of ordinary artillery range of Soissons.

Prussian guardsmen (the best troops in the German army) were employed in an effort to hold up the Franco-American advance, but the allied forces are constantly advancing, occupying German positions.

The Germans have been thrown back from their line of machine gun nests northeast of Montigny.

Combat patrols were active throughout Friday.

German artillery and the boche airmen were extremely active also.

GREAT LAND SHOW OPENS ITS DOORS TO THE PUBLIC IN OAKLAND ON NEXT MONDAY

OAKLAND, September 7. — The Pacific Coast Land and Industrial Exposition will open in this city on Monday at noon.

The event has a great deal of significance to Oakland and the state of California, as it will exploit not only the producing power of the West, but serve as a medium of the visualization to express some of the war activities at home and abroad, and this in conjunction with co-ordinated work along these lines will serve to give the public something of an idea as to what and how this stupendous task is being accomplished by the people of America.

The exposition embraces many departments. Primal importance is the federal building where will be assembled the official governmental departments; United States Food Administration, Womens' State Council of Defense, Red Cross, War Service League for Women's Service, War Camp Community Service, Liberty Bond and War Savings Stamps Committee; Belgian Relief Commission, United States Post Office, United States Recruiting Station for Marines, Y. W. C. A. Hostess House, State Library and the League for the protection of American prisoners in Germany.

The Federal pavilion is to have an exhibit of navy and war trophies, first run moving pictures under the direction of George Creel, Department of Public Information, Womens' State Council of Defense, which will devote much of their exhibit space to the welfare of children, and the improvised health center which will be equipped with nurses, specialists and child life, weighing machines and other aids in promoting improvement in the health of the children of the nation; Red Cross, which will in all probability have an auxiliary; Women's Army—direction of Mrs. M. C. Anderson, widow of the humorist, who is devoting her time with patriotic fervor to the work of the government.

FOCH'S ARMY IS NEARING GREAT BASE OF GERMANS

PARIS, September 7 (10 a. m.)—French troops are now only four miles from St. Quentin, a bastion supporting the center of the German line.

LONDON, September 7, 1 p. m.—Tergnier, three miles west of La Fere, has been captured by French troops.

The French have advanced on a twenty mile front to an average depth of two miles and at some places to a depth of four miles. They occupied Tergnier without opposition.

French is an unusually important feat. Tergnier is a big railway junction center. Through its capture the French have cut the main line of the enemy railway between Laon and St. Quentin.

HUN FLIGHT CHECKED.

PARIS, September 7. — On the front between the Somme and the Oise the French continued to press forward last night, overcoming the resistance of the German rear [illegible]

Pushing east of Ham, French troops have occupied the towns of Itancy and Oliezy, more than three miles beyond Ham.

North of the Ailette, the French have made a further advance, wiping the entire lower forest of Coucy. North of the Vesle, where American troops have been advancing, there is no change in the situation.

BRITISH [illegible]

LONDON, September 7.—The British troops advancing last night on the front to the southeast and northeast of Peronne, captured the towns of Hancourt, Sourelle-Grand and Metz-en-Couture, says today's war office announcement.

Fighting their way toward the left flank of the German positions along the Canal du Nord from Havrincourt northward the British penetrated the western part of Havrincourt wood, taking prisoners as they progressed.

The French troops also reached the forest of Coucy and now are on a big stretch of entirely new ground.

In Flanders the British are pushing toward Messines, near the southern end of the Messines, near the southern end of the Messines ridge, and they advanced their lines last night a short distance in the direction of the town.

North of La Bassee canal on the Flanders front British patrols made headway in the enemy positions in the vicinity of Canteleux and Violaines.

LOCAL BOOSTERS HOLD BANQUET LAST NIGHT

EFFORTS WILL BE MADE TO IMPROVE THE ROADS

There was a very good attendance at the banquet given last night by the Chamber of Commerce and the affair was conducted in a first-class manner, the food was good and the service excellent in every respect. Real home cooking was the chief feature of the repast and everybody appreciated the efforts of the ladies of the Richmond club and accorded them unstinted praise for the excellent cooking, their attention to each individual guest and the manner in which they saw to it that everybody was provided with everything desired.

Acting Secretary J. A. Long of the Chamber of Commerce had personal charge of the affair and it was due to his efforts that the affair succeeded beyond expectations in attendance and as a boosting feature for the town. He saw to it that the guests were seated without confusion, provided the entertainment and attended personally to all the details of the affair which are generally considered small in themselves, but without which many occasion of this character are branded as failures.

The Chamber of Commerce went on record last night as being in favor of more and better means of linking Richmond with other portions of the county and a committee was appointed by the president of the chamber to act jointly with a similar committee of the Merchants' Association and the City Council to confer with the supervisors for the improvement of the road through San Pablo Creek canyon, so that the people of Walnut Creek and the large area between this city and the interior of the county can have easy access to Richmond, instead of being compelled to go to Oakland and the towns of Alameda county to transact their business. E. J. Garrard who made the motion stated that while Richmond pays the greater portion of the taxes of the county it is not accorded proper treatment at the hands of the county officials and he was in favor of bringing the matter to the attention of the supervisors and other officials of the county in a manner which they would be compelled to recognize. The committee appointed consisted of D. J. Hall, Isaac Lester, H. W. Pulse, W. T. Helms and I. R. Vaughn.

One of the chief features of the evening was the singing of the male quartet from Murphy's tent show and a couple of solos by Percy Neil, accompanied on the piano by Miss Vera Wyatt. Mr. Neil is a general favorite with the people of Richmond and always receives an enthusiastic reception at their hands whenever he appears in public. The quartet was especially good and their songs were vociferously encored.

Many short talks were made concerning the functions of chambers of commerce and the boost spirit, but probably the best of all was the informal speech of Rev. T. A. Boyer of the First Christian church. His method of driving home his points with bright bits of humor was keenly appreciated. Others who spoke were Mayor Lane, master of ceremonies; C. E. Clark, president of the Chamber of Commerce; D. J. Hall and Clem Bradshaw, the latter a late arrival from Kansas and a man who is well known to the world of journalism as a poet and writer. He declared last night that it was his intention to make Richmond his future home—if the people were:

W. Ellis, John Roth, Charles E. Myer, John G. Gerlach, C. S. Downing, Oscar A. Long, C. C. Kratzer, James T. Narbett, C. A. Odell, W. T. Helms, Charles J. Crary, Barbikas Bros. by C. B., R. G. Ballinger, J. H. Misner, I. R. Vaughn, Geo. B. Fredenburg, Arthur A. Alstrom, R. L. Fernald, C. R. Noonan, Isaac Lester, Dan Eisenberg, J. A. Long, H. H. Turley, H. E. Wyatt, O. R. Ludewig.

GLENN COUNTY SUPERVISORS LEVIES TAX FOR THE WAR

Glenn county supervisors have the right idea in the matter of raising war funds. The Supervisors of Glenn county, in fixing the tax levy for the ensuing fiscal year have made a 9 cent levy to cover the county's subscription to war work funds.

This levy will bring in between $15,000 and $16,000. The money will go to the Red Cross, Y. M. C. A., Knights of Columbus and other war funds.

The rate inside incorporated towns was fixed at $1.20 and for outside districts at $1.80.

The idea is to make people who are able do their part toward all war activities. Large corporations who should pay large sums of money for this work have the habit of getting off with very little compared with what the average small taxpayer pays toward this work. It puts the burden just where it belongs and the plan should be adopted by every county in the state of California.

TURKISH BEY IS REFUGE HERE

Because he refused to sell his ideals to the German Government, Salih Gourdji Bey, former president of the Ottoman Official News Agency, is a refuge in this country. The journalist fled from Turkey late in 1914 but the authorities refused to permit his wife and two children to follow him. They are now in France.

HELP STOP THE WAR.

"Buy until it hurts," "Give until it hurts," are two expressions that are often used, the one referring to the purchase of Liberty Bonds and the other to contributions to the Red Cross or the Y. M. C. A. or kindred work.

Both are fundamentally false in meaning. They should be sent to the scrap heap of rubbish and supplanted by "Buy until it helps" and "Give until it helps."

Do not for one moment vainly gloriously think that this means until it helps the country or the Red Cross or the Y. M. C. A. organizations. It means buy or give until it helps you and gives you a clearer understanding of your responsibility.

"Buy until it helps" you by broadening your vision of the war and the struggle to save civilization.

Buy Liberty Bonds not out of the surplus which you can spare without feeling.

Buy not merely because the purchase of Liberty Bonds is strengthening the nation's power to fight.

But buy because your soul needs the quickening influence of a wider conception of liberty and humanity and civilization. And the more freely you buy the greater will be the ennobling of your own soul. You will be helping yourself, and in that way you will at the same time be helping the nation and civilization.

It is no act of charity to buy Liberty Bonds. It is merely contributing a moiety out of your ability, great or small as it may be, for the purchase of the engines to stop the conflagration toward your house, and you must save your house by your own work, or else recreantly throw upon your neighbors the responsibility of saving you, while you stand off and shirk your duty.

Buying Liberty Bonds is to save your wife, your mother, your daughter, from the last degradation which women can suffer as in Belgium and France, and to save your property and your nation from destruction.

Then buy Liberty Bonds until it helps you to know the meaning of the war, and until down in your soul comes the real awakening of how millions and millions of men have died, and other millions must make the supreme sacrifice upon the cross which stretches over a thousand battlefields, as they offer their lives for your salvation and the salvation of your wife and your children, and the salvation of your liberty, of your country, and of civilization itself from damnation under German rule and ruin.

Never for one moment let the thought find lodgment in your brain or soul that you have done your share in the purchase of Liberty Bonds, and in giving to the Red Cross or the Y. M. C. A. or the K. of C., until you feel that you are ready in the sight of God and of man to stand beside the men who are dying on the battlefield and be able to say to them:

"As you are making the sacrifice of your life for me and for civilization, so I am standing by your side to the last ounce of my financial power, and in the great day of reckoning, when all men shall stand before the Judgment Seat of Eternity, I am willing to have my effort in this mighty cause placed by the side of the record of the men who are dying that others may live, and in doing so are following the example of the son of God Himself."

Until you have made your purchase of Liberty Bonds and your contributions to the great work of the charitable organizations, whether they be the Red Cross, or the Y. M. C. A., or the Y. W. C. A. or the K. of C., or whatever may best express your individual effort to help the soldiers on this basis, then think not for one moment that you can stand with a clear conscience before the men who are giving their lives, and who in the great Day of Judgment, when the hearts and the lives of all shall be made plain, shall be able to compare what they have done with what you have done.

Buy Liberty Bonds, therefore, conscience, until your buying ennobles your soul and broadens until your buying helps you, until your buying gives you a clear conception, even by your financial investment in Liberty Bonds, of the tremendous struggle of all the ages.

In buying Liberty Bonds you buy the safest investment on earth. You give nothing. The country gives you in return for your money a security safer than would be a first mortgage on every railroad in the United States; safer than the cash in your bank or in your safe-deposit vaults; safer than the home in which you live; because the railroads and the cash in the bank and in safety vaults, the home in which you live, the farm which you claim, the iron ore and the coal to which you hold title, are all practically under a first mortgage to the government for the redemption of these Liberty Bonds. More than that, every ounce of physical and of brain force in the nation is under mortgage for the repayment of these bonds. The government has the right to take your farm, your home, your railroad bonds, to take your earnings, to take the potentiality of all of your material and financial power expressed in material things, for the purpose of redeeming these bonds.

But the government gives you in these Liberty Bonds its promise to pay a good rate of interest, to redeem them at a specified time, and in doing this it offers you the safest investment which today can be found in all the wide world. If it did not pay you a single dollar of interest, if its promise to redeem the bonds was indefinite as to time, the government would still have a moral and a physical right to claim your utmost contribution to the extent of all your wealth and your earning power for the prosecution of the war.

Buy Liberty Bonds, therefore, and buy them until it helps you individually to understand the whole war issue, because "where your treasure is, there will your heart be," and when you have bought Liberty Bonds to the extent that your purchase will help the government, will help every soldier on the battlefield, will help all civilization, and to the extent that you fail to do your share in this work you are recreant to your duty to your country, to humanity, and to God Himself.

Buy Liberty Bonds!

RED CROWN GASOLINE

What are gasoline boiling points?

The boiling point of any liquid is the temperature at which it vaporizes.

Gasoline has boiling points ranging from the very low to the high, and in "Red Crown" they form a uniform, continuous, unbroken chain.

The value of gasoline lies in this uniform continuity of its boiling points.

Combustion starts with the lowest boiling points and flashes on through the gas. The continuous chain of boiling points—from the low to the high—is necessary for instantaneous, full-powered combustion. Eliminate one link and the power chain is broken.

Only a straight-distilled, all-refinery gasoline can have the continuous chain of boiling points. Mixtures always have "holes" in them.

Red Crown, the Gasoline of Quality, is a straight-distilled, all-refinery fuel having the full and complete chain of boiling points necessary for steady, dependable power: Low boiling points for easy starting, medium boiling points for quick and smooth acceleration, and high boiling points for power and mileage. Look for the Red Crown sign before you fill.

NEW BOOKS OF WEEK AT RICHMOND PUBLIC LIBRARY

Amateur and Educational Dramatics (Hilliard)—An explanation of the difference between amateur and educational dramatics, and the parts which each play in the development of character in modern education; with chapters such as games and plays of children in relation to the drama; teaching reading by means of dramatics; how to write a play, etc.

Corn Cook Book—War Edition (Hiller)—Carefully tested recipes for wholesome corn dishes which will lend great variety to daily menus and serve as an aid in utilizing at lowest possible cost the cereal which ranks in food value with wheat.

Disasters and the American Red Cross in Disaster Relief (Deacon)—Millions of dollars have been administered during the past fifteen years for the relief of thousands of sufferers from disaster in this country and abroad. The experience gained has pointed out significant things about different forms of disaster relief, which are put clearly in this book.

Enchanted Cigarettes; or, Stevenson Stories That Might Have Been (Chalmers)—The author explains "Enchanted Cigarettes" as being artistic things dreamed, or planned but never executed—and applies the phrases in a discussion of a list of novels and tales which Robert Louis Stevenson planned but never wrote.

"The Family Album" (Wing)—"Another 'Fotygraft Album' shown to the new preacher by Rebecca Sparks Peters, aged eleven.

In These Latter Days (Bancroft)—Many of these papers, written by a California historian, deal with problems of the Pacific Coast, notably with questions of Asiatic immigration.

Militant America and Jesus Christ (Rihbany)—A discussion as to whether or not our engaging in a defensive war receives support and justification from the "Great Teacher," or unqualified condemnation.

My Garden in Autumn and Winter (Bowles)—A book on flower gardening which is interesting to read as well as practical.

Nietzsche the Thinker (Salter)—A study of Nietzsche which was in substance written before the war, with the aim of expressing an understanding of him, not a criticism. Contrary to the popular fashion of connecting Nietzsche with the war, the author believes that the war would probably have arisen and been conducted about as it has been, had Nietzsche never existed.

School-Day Philosophy (Cholmeley-Jones)—A book on character building, including short essays on Loyalty; two methods of study; ambition; confidence, etc. As many as 24,000 copies of this book have been distributed, at the request of the heads of various schools and colleges among their students.

Tide of Immigration (Warne)—An argument for the reduction of immigration into the U. S., a plea for the literacy test, and a discussion of the effects of the war upon immigration.

The War After the War (Marcosson)—"Peace will be as great a shock as war. Hence the preparedness to meet the inevitable conflict for universal trade."

Not One Chinese In Ten Thousand Has Constipation

except a few drug users, while about 90 per cent of the Americans suffer from this dread complaint. The FONG WAN HERB SPECIALIST gives the following explanation of this phenomenon. "When a Chinese is ill, he immediately consults a Herb Specialist and the cause is removed, but, when an American feels bad, the first thing he does is to take a PHYSIC. This may relieve him temporarily, but repeated doses of such drugs eventually paralyze the bowels. As the bowels then no longer move naturally, physic taking becomes a habit, the weakened bowels drag, and there is a heavy pressure of gas on the rectum. If the poor victim be a man, the physician will usually tell him that his trouble is piles; if a woman, that it is female trouble."

By drinking the Fong Wan harmless Chinese herbs, hundreds of Americans have not only been relieved of their stomach and bowel troubles, but have been made normal again. Their testimonials are on file.

TO ALL PATRIOTIC CITIZENS

The following appeal to patriotism is issued by the Power Administrator appointed by the Railroad Commission of the State of California:—

Conserve Electricity

Patriotism demands that you save electricity for war industries.

Northern and Central California have a SERIOUS power shortage because of lack of rain during the past winter and the increased use of electricity by war industries.

These War Industries Must Have Power

There is not enough power for everybody at the present rate of consumption. It is up to you to save. Turn off lights whenever possible and use lower power lamps.

This is one other thing you can do in the great struggle.

Power Administrator.

neys for Mayor Rolph, are to act as counsel for Frank N. Rodgers, candidate for the Assembly in the Thirty-second District. Rodgers' position is felt to be on all fours with that of the mayor. As a registered Republican he was defeated for the nomination of that party by George W. Warren. He did, however, win the Democratic nomination. Under the law he is eliminated from the finals, although still the choice of the Democrats.

Matt I. Sullivan called upon Registrar of Voters J. Harry Zemansky yesterday to rush a separate count of the vote in the Thirty-second Assembly fight.

Last evening the official figures were certified and Sullivan wired them to the secretary of state, Frank C. Jordan.

Thrift Stamps First

Little Bobby is a 100 per cent patriot. He likes his candy, ice cream soda, popcorn, peanuts and chewing gum just like every little boy—but today his spending money goes for "Thrift Stamps First."

Every week he adds one or two to his Thrift Card—and he is happy that in his way he is doing as much to help win the war as his Big Brother Bill who enlisted in the Marines and is on the firing line "over there" now.

We can all help beat the Kaiser and the things for which he stands—some with our swords—others with our savings.
Have you the Thrift Stamp Habit? You should have—and the time to start is now.
